We celebrate the achievements of all of our Year 12 students, across their academic, sporting and cultural pursuits.

I am delighted to share with you Pulteny Grammar School's 2019 Year 12 results and tertiary information. These results reflect the dedication and perseverance of our students over many years at Pulteny, and are testament to the hard work and application across the breadth of subject areas.

The class of 2019 achieved excellent academic results, and 100% of the cohort attained their South Australian Certificate of Education (SACE). The percentage of students who received tertiary offers for their first or second university preference was an outstanding 94% (up 1.5% from 2018).

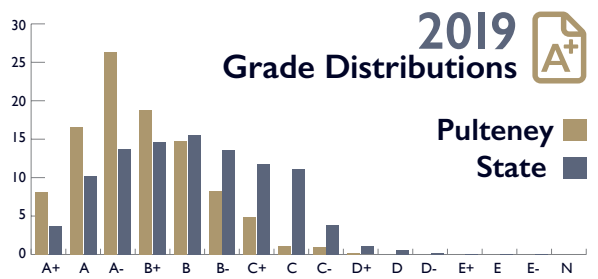

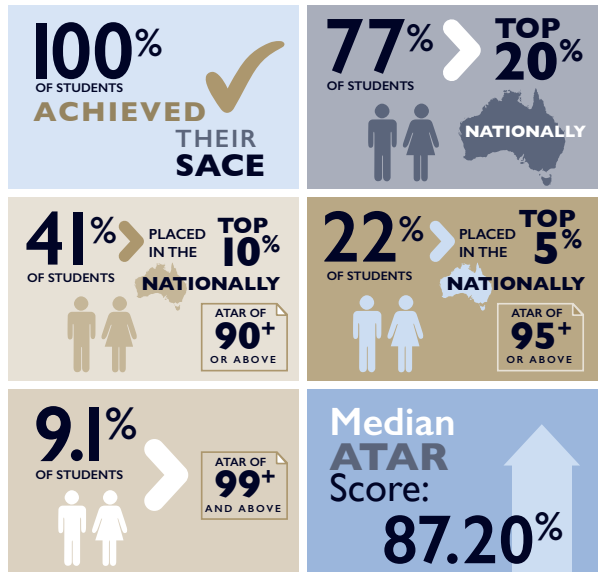

The tertiary offers indicate an increase in the number of Pulteny students interested and offered a place in law and criminology, exercise and sports science, and the Arts – reflecting student desire to pursue a generalist degree with breadth. Application to other course areas remained steady.

I thank the parents and families for their support of our students, and I also thank our outstanding team of teaching and support staff for their dedication and professional guidance in helping each student to achieve to their potential. Developing the whole student involves not only encouraging academic efforts, but supporting and celebrating aspiration, creativity, service, innovation, curiosity and courage. We recognise that our students are more than the sum of their academic results and are confident they enter the next stage of their lives well prepared to take on challenges with confidence, compassion and maturity.

On behalf of the Pulteny community, I congratulate each Year 12 student of 2019, and wish each of them all the very best for the future.
