From the Principal

Looking forward to 2017

It has been a pleasure meeting with new and current parents whose children are transitioning across our four sub-schools or joining Pulteney for the first time in 2017.

We have an extensive program of transition, orientation and information sharing, and key events to support these activities have been occurring over the last few weeks. Should you have any questions regarding your child’s transition, I encourage you to contact the relevant Head of School who will be only too happy to assist.

Celebrate! Kurrajong Christmas

On Monday evening parents, grandparents, special friends, siblings and staff were entertained with a wonderful performance by our Reception to Year 2 students in Kurrajong. I extend my thanks to Mr Jonathon Rice and Ms Meredith Wilson, who have provided outstanding musical support and leadership in Ms Tanya Phyllis’ absence. I also acknowledge the valued contributions of Ms Vanessa Couche, Ms Jill Rose and members of the band, Ms Jody Sadecki, Mr Frank Fragomeni, Mr John Calisto and Year 12 student Nikita Dahm. Thank you, too, to all of our Kurrajong teachers and assistants for their wonderful support during the preparations and on the night.

Our younger students literally shone on stage; their glittering t-shirt designs added to the sparkle and brightness of the event in the Town Hall. It was a lovely evening, thoroughly enjoyed by all who attended.

I am sure we all took a moment to think of our colleague, Tanya Phyllis, last night. She is in our thoughts & prayers.

Photographs courtesy of Joseph Ninio
It gives me pleasure to announce the appointment of staff to the following positions:

◆ Learning Area Leader Languages – Mrs Kirsty Hickman
◆ Learning Area Leader English – Mr John McCall
◆ Learning Area Leader Visual Arts – Mr Rod James
◆ Learning Area Leader Performing Arts – Mr Jonathon Rice
◆ Learning Area Leader Mathematics – Mr Mark Webber
◆ Learning Area Leader Science – Mrs Sharon Pearce
◆ Learning Area Leader Digital Technologies – Ms Georgie Buenfeld
◆ Learning Area Leader Health, Physical Education and Outdoor Ed – Mr Matt Down
◆ Learning Area Leader Humanities – Mr Dan Crane
◆ SACE Coordinator – Mrs Kirsty Raymond

The Learning Area Leader Role is a redesigned role for our School and focuses on academic and curriculum leadership in a specific Learning Area as identified in the Australian Curriculum. These roles span the four sub schools.

Learning Area Leaders, as well as other key staff including the Head of Learning Support, Director of Learning Technologies, Head of Schrader Resource Centre, Assistant Heads of School, Futures Coordinator, the SACE Coordinator and the Coordinator of Research Project and PLP are active members of the Teaching and Learning Committee, chaired by Deputy Principal, Mr Greg Atterton. This group provides vital advice and guidance to inform the academic direction of Pulteney and it undertakes research and presents recommendations to the Executive on key decisions pertaining to teaching and learning.

Anne Dunstan
Principal

From the Head of Maths

Philosophy, beauty, complexity: what you are missing out on if you don’t do the Maths.

Apologies to Marcus Strom (science editor for the Herald) for borrowing this heading.
I have previously written about our use of maths in everyday life, from forming budgets to planning holidays where plane schedules use 24 hour time, to working out how much carpet we need to buy for the new room. Even for the health conscious, counting calories or kilojoules. So, I thought I’d take a different tack this time around.

Strom’s article on September 21 started with a Hellenistic Egyptian king more 2500 years ago struggling with his homework and saying to his tutor (Euclid) that the work was too difficult and asking “Can’t you show me the easy way?”. A young Euclid is reported to have replied “But sire, there are no royal roads to geometry”.

The article goes on to suggest that many people today are missing the point by still trying to find an easy path through Mathematics. Professor of Mathematics at the university of Sydney, Nalini Joshi, says that “It is the struggle of Mathematics that is important.”

The number of students, Australia wide, taking advanced Mathematics has been in decline for a number of years, hence the push in STEM subjects (Science, Technology, Engineering & Mathematics) by the Australian Government.

Strom suggests that “we must learn to celebrate the complex and creative in Mathematics if it is to regain favour.” Mathematics is not just about right and wrong. Professor Joshi compares Mathematics to the creativity of music where patterns at even the most basic level are used to form harmonics. Creativity is an essential part to develop more complex overtures.
At times children can be asked to get from point A to point C, via a rigid path through point B. This can slow their development and creativity. At Pulteney we often emphasise that there is more than one way to solve a problem and encourage students to offer alternative solutions.

Have you ever helped your child with their homework when they have said “but this isn’t the way we were taught in class.”? If a child has not understood one path way to an answer, it is good to explore other pathways until they find one that works for them. Each pathway has its own little series of discoveries, which may in turn open up other pathways.

When students first learn about square roots, they are probably told that it is not possible to find the square root of a negative number, yet an entire branch of Mathematics is devoted to complex numbers, where by simply defining many previously unsolvable problems can now by solved. Complex numbers have a significant use in areas such as optics and radar technology.

“In few other human activities is the contemplation of philosophy, truth and logic so near to the surface: What is zero? How long is forever?...What is a number greater than infinity?”

The last has a simple answer, infinity plus one. But there are many different creative answers possible.

We should be encouraging our students to “daydream and to build castles in the air.” Mathematics provides the tools that are necessary to help them achieve these dreams, providing ladders to their imagination.

Wolfram Bentz, the Director of Mathematics at the University of Hull, reflects that Mathematics rarely makes the headlines despite being at the cutting edge of research. It looks at finding methods to solve problem for which there is currently no solution.

Any problem we currently do has previously been solved by a Mathematician, another would have proven that it works, while another has probably found a use for it in the real world, while another may have come up with a more efficient method, or applied the same approach to different or larger problems. No doubt each method would have relied on several properties proven over a long period of time, all of which we now take for granted.

The research undertaken often has a trickle-down effect where results found in pure Mathematics eventually are used to develop areas of applied Mathematics, and eventually by non-Mathematicians. One such area is number theory which is often ahead of its time. G. H Hardy, an early 20th century number theorist proudly said "No discovery of mine has made, or is likely to make, directly or indirectly, for good or ill, the least difference to the amenity of the world.”

His research is now the basis of encryption algorithms that are used to keep our back accounts secure.

Bentz says that “When the next technological or scientific breakthrough requires a new type of Mathematical model, it is likely that the subject already has the underlying theory in hand, waiting to be adapted to a new setting…..because mathematical results are based on logical deductions alone, they never actually become wrong, never get obsolete, and never truly get old. They are just waiting for the right application to arrive.”

The government is pushing STEM education because many of the jobs in the future will rely on technology. We also need designers of the technology. School Mathematics is about preparing students to be the researchers and designers of the future. Clearly school students are not ready to be at the cutting edge. Our role is to prepare students and give them the foundation they need for whichever path they take in the future, whether they be users, or designers of technology, or researchers for models that may not find a use for decades.

Mark Webber

Carols in the Cathedral Friday 9 December, 7pm
From the Chaplain

Christ the King

What might be the point of celebrating a feast day called Christ the King?

May the words of my mouth and the meditations of our hearts be worthy in your sight, O Lord, our Rock and our Redeemer.

This week in chapel we explore the mystery and the majesty of Christ the King. The feast of Christ the King is the final Sunday in the Church’s year. On this day Christians proclaim Christ as a king, but not like any normal king. In the Gospel reading Luke 23:35-43 we find Jesus on a cross not a throne, with two other condemned criminals. Christ is a servant king, a king who shows power in vulnerability, a king who shows love from the humiliation of the cross. This reading is brimming with empathy and compassion. A dying man, a convicted and confessed thief, heard words of reassurance from Jesus

“Truly I tell you, today you will be in paradise.”

We can only imagine what consolation Jesus’ last words to his fellow victim of crucifixion were. Jesus’ actions and words absolutely aligned with how he chose to spend his life teaching about the Kingdom of God. A kingdom that offers liberation and healing to those held captive by sickness of the heart, body, soul and mind. The kind of grace and forgiveness that Jesus is teaching about is paradigm shifting. It is a new way of thinking about being human. We are still often deeply uncomfortable about the fact that this radically inclusive giving of grace and forgiveness includes everyone- thieves, drug addict, adulterers-everyone. This so challenged and confounded elders, priest and politicians that Jesus became a threat to their way of life- a life that was privileged by denying others justice. They saw no other way to preserve their advantage and immoral wealth but to condemn Jesus to a humiliating and agonising death.

Paradise is not exclusively for nice people; it is for all who confess faith. Our confessional faith is more about God’s strength than our weakness. We confess our faith to a God whose love and forgiveness is available to all. In this Gospel we encounter three men hanging from the cross, suffering and dying. One reviles, one asks for salvation, one promises Paradise. One is condemned, one is redeemed, one will Rise from the Dead.

The cross is where we would least expect to find a king, yet it is where we find Jesus. The cross is where we least want to be, yet this is how God’s kingdom is established and how Christian discipleship begins. In celebrating the Feast of Christ the King we are called not to simply pay homage, but to do as best we can what he did.

Eternal God,
We look forward to all that the Advent, Christmas and New Year seasons hold for us.
Help us in our resolve to triumph over sin.
Help us to be the glimpse of Paradise that Jesus speaks of.
Amen.

Chaplaincy Contact

I can be contacted at any time, email michael.lane@pulteney.sa.edu.au, phone 8216 5512 / 0434 297 879 or contact the school office

Deep Peace,

Michael

Pulteney Advent Christmas Calendar dates

Community Choir

It is not too late to join us. Kym Wilson is leading rehearsals in the Theatrette on both Tuesday and Thursday mornings at 7.30 am. I know 7.30 feels incredibly early, however singing is a fabulous way to start the day. You only need to attend enough rehearsals to sing confidently. We are singing in four parts and it already sounds great!

St Peter’s Cathedral Carols Service Friday December 9, 7:00 pm.

Christmas Nativity Service Saturday
December 24, 6:00 pm Chapel of St Augustine, Pulteney.

Celebrate the Christmas story with all the family. Children can participate in the nativity play. All your favorite Christmas carols. A talented guest organist will put the beautiful chapel organ through its paces. Followed by refreshments- let’s celebrate together the Christmas season.
Sub School News

What's Happening?

Examination Arrangements (Weeks 6 and 7) Students were dismissed at 3.30pm on Tuesday 22 November. They have one day of swotvac on Wednesday 23 November before they begin their examinations on Thursday 24 November. Their examinations will continue until Friday 2 December. Students are only required to be at school when one of their examinations is scheduled. However, if they wish to study in The Centre for Senior Learning or seek extra tuition from subject teachers, they are welcome to do so. Should students wish to use this opportunity, they must come to school in correct one ninety uniform.

Big Day In (Week 8) All Year 11 students are expected to attend the annual Big Day In on Monday 5 December. On this day, students will be provided with a list of their Year 12 subjects and attend a ‘lesson’ with the current 2016 subject teachers so that they may be able to undertake initial preparations for their subjects. This will signal the final day of the academic year for all Year 11 students. Distribution of end of semester reports Semester 2 reports will be posted to families on the last day of term (Friday 9th December).

Middle School

What’s Happening?

Year 7, 8 and 9 Activities Day On Thursday, 8 December, the Year 8s will be heading out to celebrate the completion of a successful year in the Middle School. Students will participate in a morning session at Cross Road AMF bowling. The session will include two games of bowling, one game of laser skirmish and lunch (a hot dog, small fries and small drink). Students will arrive at school at the usual time and meet in their Tutor rooms. The students will then travel by bus to Cross Road AMF bowling. On completion of the Cross Road AMF bowling session, the students will return to school to watch the movie Antman, which has a PG rating. Students are to wear casual clothes appropriate for the activities for the day. Please ensure they wear sneakers and socks to wear with their bowling shoes. They may like to bring some additional snacks or money for Cross Road AMF bowling.

Middle School Final Assembly Parents of our current Year 9s should all have received an invite to our Middle School Final assembly where we will be acknowledging the ‘moving on’ of our Year 9s.

Prep School & Kurrajong

What’s Happening?

Junior Art Show Kurrajong and Prep students have regular opportunities to explore Visual Arts in its many elements, using a wide variety of media and experimenting with different techniques. The possibilities are endless and the Visual Arts programme is "hands on", has immediate rewards, focuses on positive achievements, develops concrete products, and fosters collaboration. Children demonstrate their skills through authentic success. They also learn to observe, interpret, see different perspectives, and tune into their critical and creative thinking skills.

Please feel free to visit the exhibition this week between 3:30 and 4:30 each day.

Friends of Pulteney

Quad Cafe is back in the Quad this week!
Friends will hold the Quad Cafe in the Quad by Wyatt Hall. Pop in and grab your Friday morning coffee from 8.00am.
Community & Awards

University of Adelaide - Mentor Teacher Awards
Over the course of this year, our School has supported a number of pre service teachers by providing them an opportunity to develop their knowledge and skills within the classroom environment. Staff, acting as mentors, have worked alongside pre service teachers providing them with valuable advice, guidance and encouragement over the course of their placement.

Recently a number of our staff were nominated for a Mentor Teacher Award and attended a special presentation at the University of Adelaide. We congratulate Amelia Mislov, John Taylor and Jodi Petherick on their outstanding support for young teachers and are well deserving of the Mentor Teacher Award nomination.

Duke of Edinburgh’s International Award
Congratulations to the following students who have recently completed their Duke of Edinburgh’s International Award requirements.
Matthew Nielsen - Gold
Belinda Greig – Silver
Anastasia Patsouris – Bronze
Matthew will have his award presented during a ceremony at Government House in early 2017, along with other Gold Award achievers across the South Australia.

Premier’s Reception – Premier’s Reading Challenge, 2016
On 16 November Christian Bizot and Alice Sabine attended the Premier’s Reception to acknowledge schools who had achieved outstanding results in the Premier’s Reading Challenge for 2016. Christian and Alice accepted a special certificate and a bag full of books on behalf of the entire school community. These books will be distributed amongst the school’s resource centres. This year we had 331 students participating from Reception through to Year 9. Medals and certificates will be presented to individual students later in the term. All students are to be congratulated on their efforts and we hope everyone continues to challenge themselves to read more in the future.

What’s News?
Tuck Shop

Tuck Shop Ordering Procedure has changed. Online ordering via Flexischools will be phased out over the remainder of Term 4. Please ensure that any balance on your Flexischools account is used prior to the end of Term 4 (9 December 2016).
Pulteney Grammar School and Rory’s School lunches are excited to launch online ordering for school recess and lunches via the Qkr! app.

For more information on the new ordering procedure, please see the flyer at the end of this weeks’ PRW

2017 Campion Booklists

New Books and Stationery 2017 Booklists are now available online!
To order books through Campion online, please visit www.campion.com.au
Please follow the links to Pulteney Grammar and then your son/daughter’s appropriate year level.
The Resource list code is WAEX
Book orders are due by 9 December and will be delivered to your home.
Senior Sport Results

Tennis (Boys)
Drive Pulteney were defeated by Trinity College 2 sets to Trinity’s 7 (27 games to 49 games)
Senior A boys tennis defeated St. Ignatius College 2 by 12 sets to 1
Senior B Boys defeated Gleeson College 8 sets to 4.
Middle A Boys Tennis Pulteney Grammar School defeated St Peter’s College - 7 sets 50 games to 2 sets 34 games.
Middle B Pulteney were defeated by Concordia, 3 sets 33 games to 5 sets 34 games
Middle C boys tennis defeated Gleeson College 5 set, 35 games to 5 sets, 32 games.
Primary B were defeated by Pembroke, 3 sets 31 games to 6 sets 38 games.

Tennis (Girls)
Division 1 Girls tennis team was defeated by Wilderness School 3 sets 27 games to 3 sets 28 games
Division 2 Navy were defeated by Saints Girls, 2 sets 23 games to 4 sets 29 games
Division 2 White were defeated by Scotch College, 0 sets 5 games to 6 sets 36 games.
Division 3 Pulteney Girls defeated St. Peters Girls College; 6 sets, 36 games to 0 sets, 6 games.
Division 4 girls tennis team defeated St Peters Girls 6 sets to 0

ALL THAT GLITTERS...

JUNIOR SCHOOL ART EXHIBITION.

18 November until 29 November
at The Art Centre
The Pulteney Community has a strong tradition of helping the Magdalene Centre in the lead-up to Christmas. The Magdalene Centre is preparing to give away 500+ Christmas Hampers of food, toys and gifts to those in need. All donations are greatly appreciated. As we all know finding the right gift for a teenager is sometimes perplexing so if you have any gifts suitable for a teenager they will be especially welcomed. Many people are including mini toiletries. These are greatly appreciated, especially toothpaste. I know these are a great help and confidence booster to young homeless people getting ready for interviews for accommodation and employment.

Donations can be brought to the Chapel Foyer. Baskets have been labelled so that we can sort and care for your donations.

Quad Café

The Quad Café provides an opportunity for parents to catch up at drop off over a coffee.

When: Friday Mornings during Term
      8.00am to 9.00am

If you are available to assist, please contact Cate Boucher on 81135636 or cate.boucher@pulteney.sa.edu.au
