**PULTENEY**

# *Join Us in the 2024 Annual Giving Campaign*

Please join me in supporting Pulteney Grammar School by participating in the 2024 Annual Giving Campaign. This year, we have an exciting goal: to refurbish two of our science laboratories, creating state-of-the-art learning environments.

Our current science labs have served us well for over 20 years; however, they are no longer adequate for the demands of a modern science education. With your support, we will create flexible, dynamic spaces equipped with the latest technology, designed to inspire, and challenge students at all year levels. The refurbishment of our science labs is just the first step in a multi-year initiative to refresh our science facilities.

Your generous contribution will help us lay the foundation for a future where every student has access to cutting-edge resources and opportunities.

Beyond the science labs, you may wish to support the Scholarship Fund and the Building Fund as part of the Annual Campaign. By contributing to these funds, you are investing in the future of our students and the continued excellence of Pulteney Grammar School.

When you donate to Pulteney, you become part of a community that is dedicated to making a difference in the world through education. Your contribution, no matter what size is valuable to Pulteney and its endeavour to provide its students with the best possible educational experience.

Thank you for considering a donation to Pulteney Grammar School. Together, we can transform lives and shape our school's future.

Thank you for your generosity and support.

**Deb Dalwood**  
Interim Principal

## HOW YOUR GIFT WILL HELP

Every donation to Pulteney's 2024 Annual Giving Campaign will directly impact our students' learning experience.

### Here's how:

#### NEW SCIENCE LABORATORIES

Your generous contribution will go towards refurbishing Pulteney's outdated science labs. These new, state-of-the-art facilities will provide flexible learning spaces equipped with the latest technology, enhancing the educational journey from Junior School through Year 12. These labs will inspire the next generation of scientists, researchers and innovators.

#### SCHOLARSHIP FUND

Supporting the Scholarship Fund enables us to provide opportunities for talented students from diverse backgrounds to join our School community, enriching the learning environment for all.

#### BUILDING FUND

Contributions to the Building Fund ensure we can continue to develop and maintain excellent facilities that support a broad range of academic and extracurricular activities. Your gift, no matter the size, makes a significant difference. Together, we can build a bright future for Pulteney.

## SCIENCE SHAPES FUTURE

#### DR. CHRIS FULLER ('69)

Dr. Chris Fuller is an expert in acoustics and vibration control, known for his pioneering work in Active Structural Acoustic Control (ASAC). He holds 20 patents and has installed ASAC systems in over 1,500 aircraft globally.

#### DR. IAN BAKER WALL AM ('47) (1931-2022)

Ian Wall AM co-founded EILCO, which later became Codan, a leading electronics company with offices in ten countries.

#### TESSA MANNING '15

Tessa Manning is a PhD candidate in reintroduction ecology, focusing on reintroducing red-tailed phascogales to South Australia.

Visit the School website to read more about how these Old Scholars have prospered through science careers.

# HOW TO SEND A GIFT

Making a donation is simple and convenient. You can support Pulteney in several ways:

## Mail

Complete the donation slip attached to this flyer and send it back using the reply-paid envelope.

## Online

Visit our donation webpage or QR Code to donate securely:  
[www.pulteney.sa.edu.au/online-donation-page](http://www.pulteney.sa.edu.au/online-donation-page)

## Phone:

Call the School on **8216 5555** to make a donation over the phone.

Thank you for considering a contribution to this worthwhile cause. Your generosity will have a lasting impact on our students and the broader Pulteney community. Together, we can achieve extraordinary things.
